

A COMPANY AS
STRONG
AS ITS STEEL.

JODHPUR • JAIPUR

Giriraj Steels, hailing from Rajasthan is one of the leading suppliers of top quality steel, having a wide range of products. We cater to the steel requirements of almost the whole of Rajasthan since last five decades. Our offices are based in Jaipur and Jodhpur.

Under one roof, we house, all the top steel brands of the country. The steel supplied by us is widely used in many fields like the textiles, stainless steels, automotive, construction, infrastructure and handicrafts industries etc .

The gamut of our products include HR Sheets & Coils, Chequered Sheets & Coils, CR Sheets & Coils, GP Sheets & Coils, GC Sheets, Colour Coated Roofing Sheets, TMT Bars, Angles, Channels, Round, Flat and Square Bars, Wires, I Beams, H Beams, Pipes, AC Sheets, Cement Boards, Cement and many more.

We have wide stocks of the following reputed brands like : SAIL, JSW, APL Apollo, Premier Bars, Hyderabad Industries Ltd., Kohinoor Metals, Defendo and many more prestigious brands.

We at Giriraj steels are known for our **prompt services** and **efficiency in operations**.

Our company is known for many of its strengths. Among them is a warehouse spread over a wide covered shed of 2 lac sq.ft. area which is set to increase further. We are also equipped with 7 huge cranes having capacity of lifting 10 to 40 tons of weight, 4 in-house weigh bridges of 10 to 120 tons, 2 crane weigh machine of 10 tons each, 10 weigh machines of 2 & 3 tons each, 3 cut to length plant of 12 mm thickness and 2 meters width, 2 profiling plants, 2 crimping plants, 1 bending and folding plant and a efficient team of more than 50 people.

ABOUT US -

WE WERE
ALL
STEEL.

TMT BARS

THE FOUNDATION OF A HOME
NEEDS TO BE **STRONG!**

SUPPLIERS OF HIGH QUALITY TMT BARS.

We supply quality TMT bars manufactured by well known brands using latest technology. This technology makes the TMT bars super durable. TMT bars are earthquake-resistant, corrosion-resistant, weld-able bendable and mouldable which helps the architects and designers to build innovative and creative structures. These can be transformed into any shape used for a wide range of constructional purposes. TMT bars are widely used in general purpose concrete reinforcement structures, bridges and flyovers, dams, thermal and power plants, industrial structures, high-rise buildings, underground platforms in metro railway and rapid transport system.

TMT Bars:

DIA (mm) : 6 mm to 40 mm

I BEAM • H BEAM

STRENGTHENING YOUR
ARCHITECTURE WITH
OUR **POWERFUL SUPPORT!**

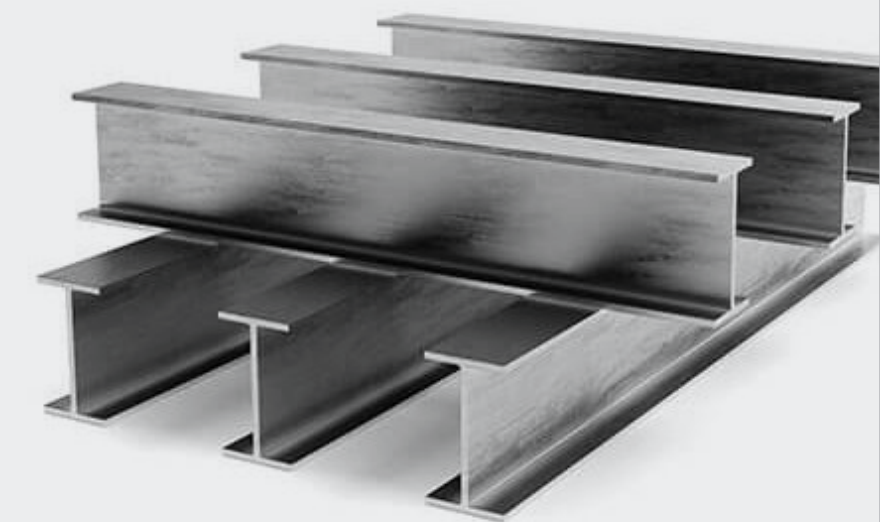

SUPPLIERS OF HIGH QUALITY MS I & H BEAMS.

We are a well known supplier of mild steel Beams manufactured by renowned steel giants. We commonly supply 'I' & 'H' shape light and heavy beams (ISMB, ISHB & NPB), used in various applications in Bridges, Flyovers, Pedestrians Walk Overs and Buildings. Other applications include all type of Structure, frames of industrial buildings and Sheds.

IS BEAMS

Size in MM		Weight in Kg per Meter	Weight in Kg per Feet
100x70	4x3	11.50	3.50
100x116	4x4.5	23.00	7.00
150x75	6x3	15.00	4.57
150x150	6x6	37.10	11.31

200x100	8x4	25.90	7.89
200x150	8x6	52.09	15.88
250x125	10x5	38.10	11.61
300x140	12x6	45.10	13.75
350x140	14x6	52.90	16.12
400x140	16x6	62.60	19.08
450x150	18x6	73.10	22.27
500x180	20x7	87.70	26.72

CHANNEL & ANGLE

CHANNELS & ANGLES WITH
STRENGTH & QUALITY.

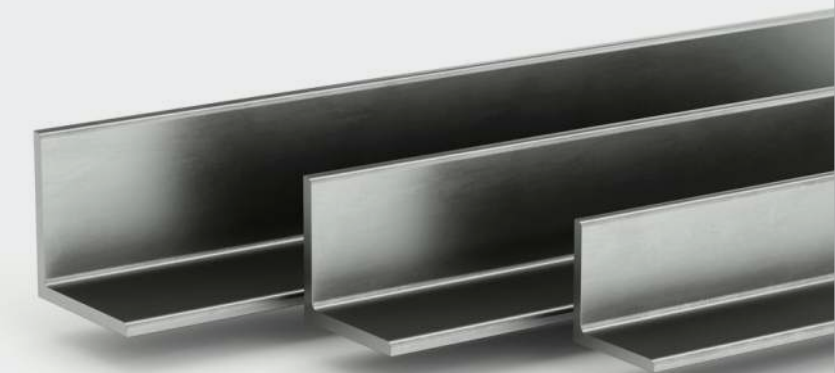

SUPPLIERS OF HIGH QUALITY MS CHANNEL & ANGLE

Channel refers to the shape which is essentially of C Typed. Steel channel is most often used in construction of buildings like garages, warehouses and metal buildings. Channel is primarily used as a stud.

MS CHANNEL & ANGLE:

Channel : 75 x 40mm to 400 x 100mm

Angle : 20 x 3mm to 200 x 20mm

MS ROUND/SQUARE/FLATS

A **PERFECT** SOLUTION FOR FABRICATION WORKS!

SUPPLIERS OF HIGH QUALITY MS & DRAW ROUND/ SQUARE/ FLATS

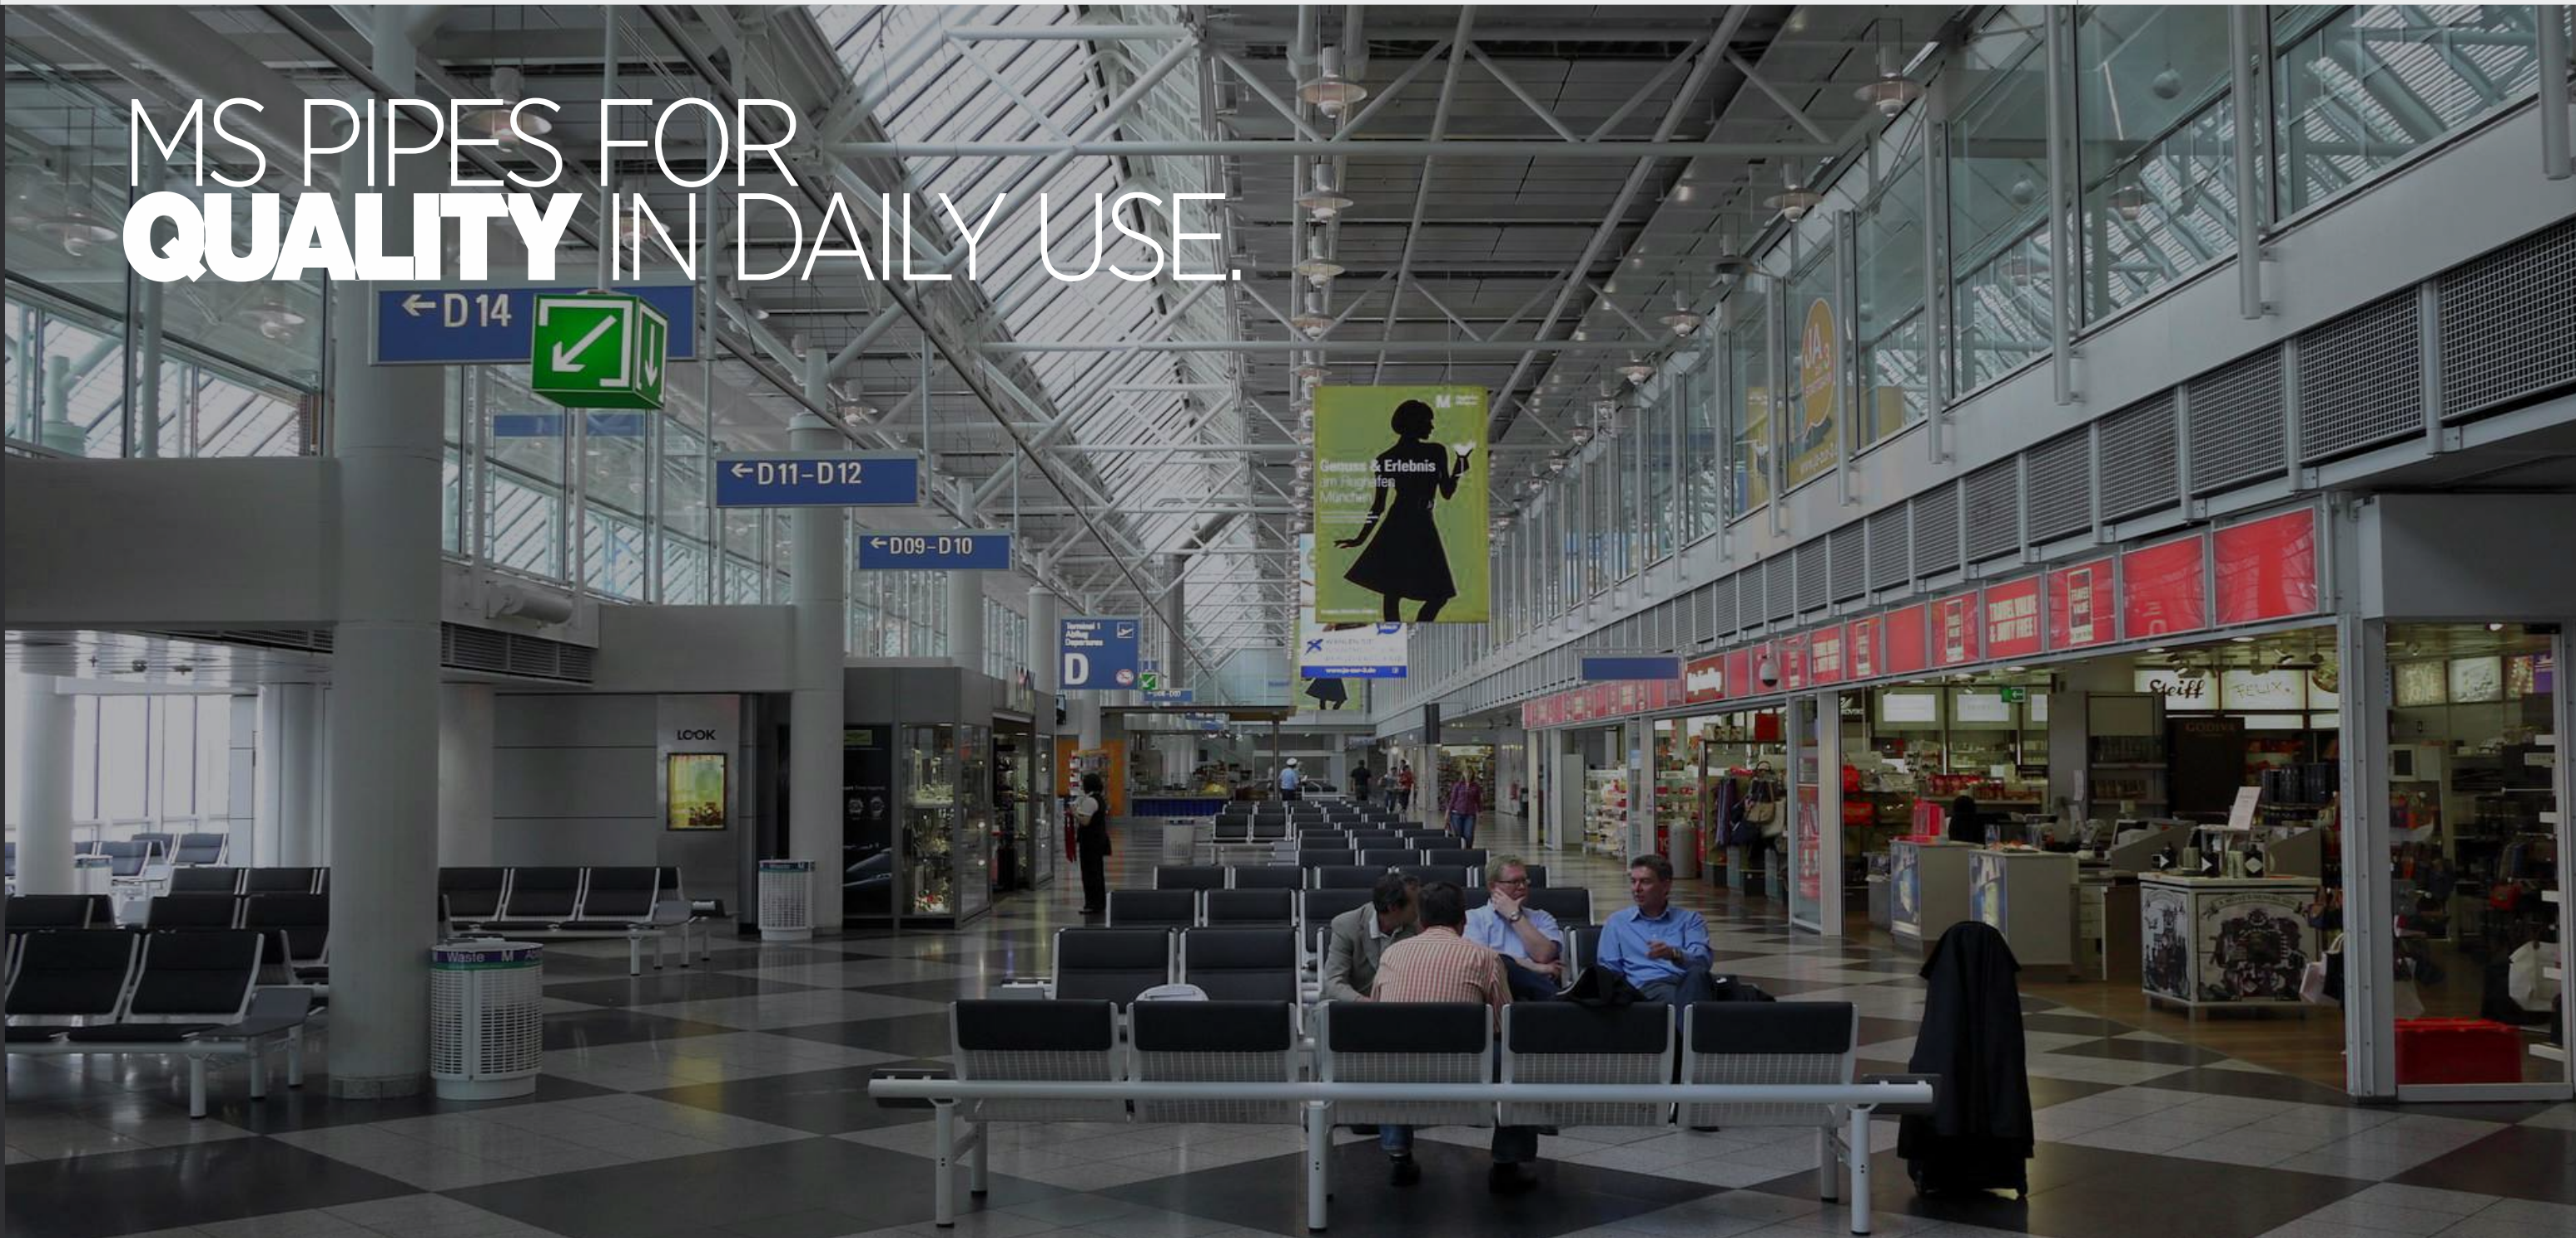

We supply round, square and flat. These are used as Sections in Windows, grills, Gates, Stairs, Truck / Bus body building, Ship Building Earth Strips, Etc. These are available in mild steel grade and draw grade steel. It is suitable for metal structures, fabrication works, grills, gates, machinery etc.

MS SQUARE/ ROUND/ FLATS:	MS & DRAW
Square & Round Bar	: 5 mm to 100 mm
Draw Square & Round Bar	: 8 mm to 50 mm
Flat	: 12 x 2 mm to 300 x 20 mm
Draw Flat	: 20 x 5 mm to 75 x 12 mm

MS PIPES

MS PIPES FOR **QUALITY** IN DAILY USE.

SUPPLIERS OF HIGH QUALITY MS PIPES & CR PIPES

MS Pipes are made from mild steel & CR pipes are made from cold steel. These are generally used in furniture, firefighting equipments, structure for roofing and engineering applications. These are used in multiple sectors like, Agriculture, Oil and Gas, Public Health, Housing, Irrigation, Engineering etc.

MS PIPES:

Square Pipe : 15 x 15mm to 300 x 300mm

Round : 15 NB to 350 NB

Rect Pipe : 25 x 12mm to 400 x 200mm

CR PIPES:

Square Pipe : 12 x 12mm to 100 x 100mm

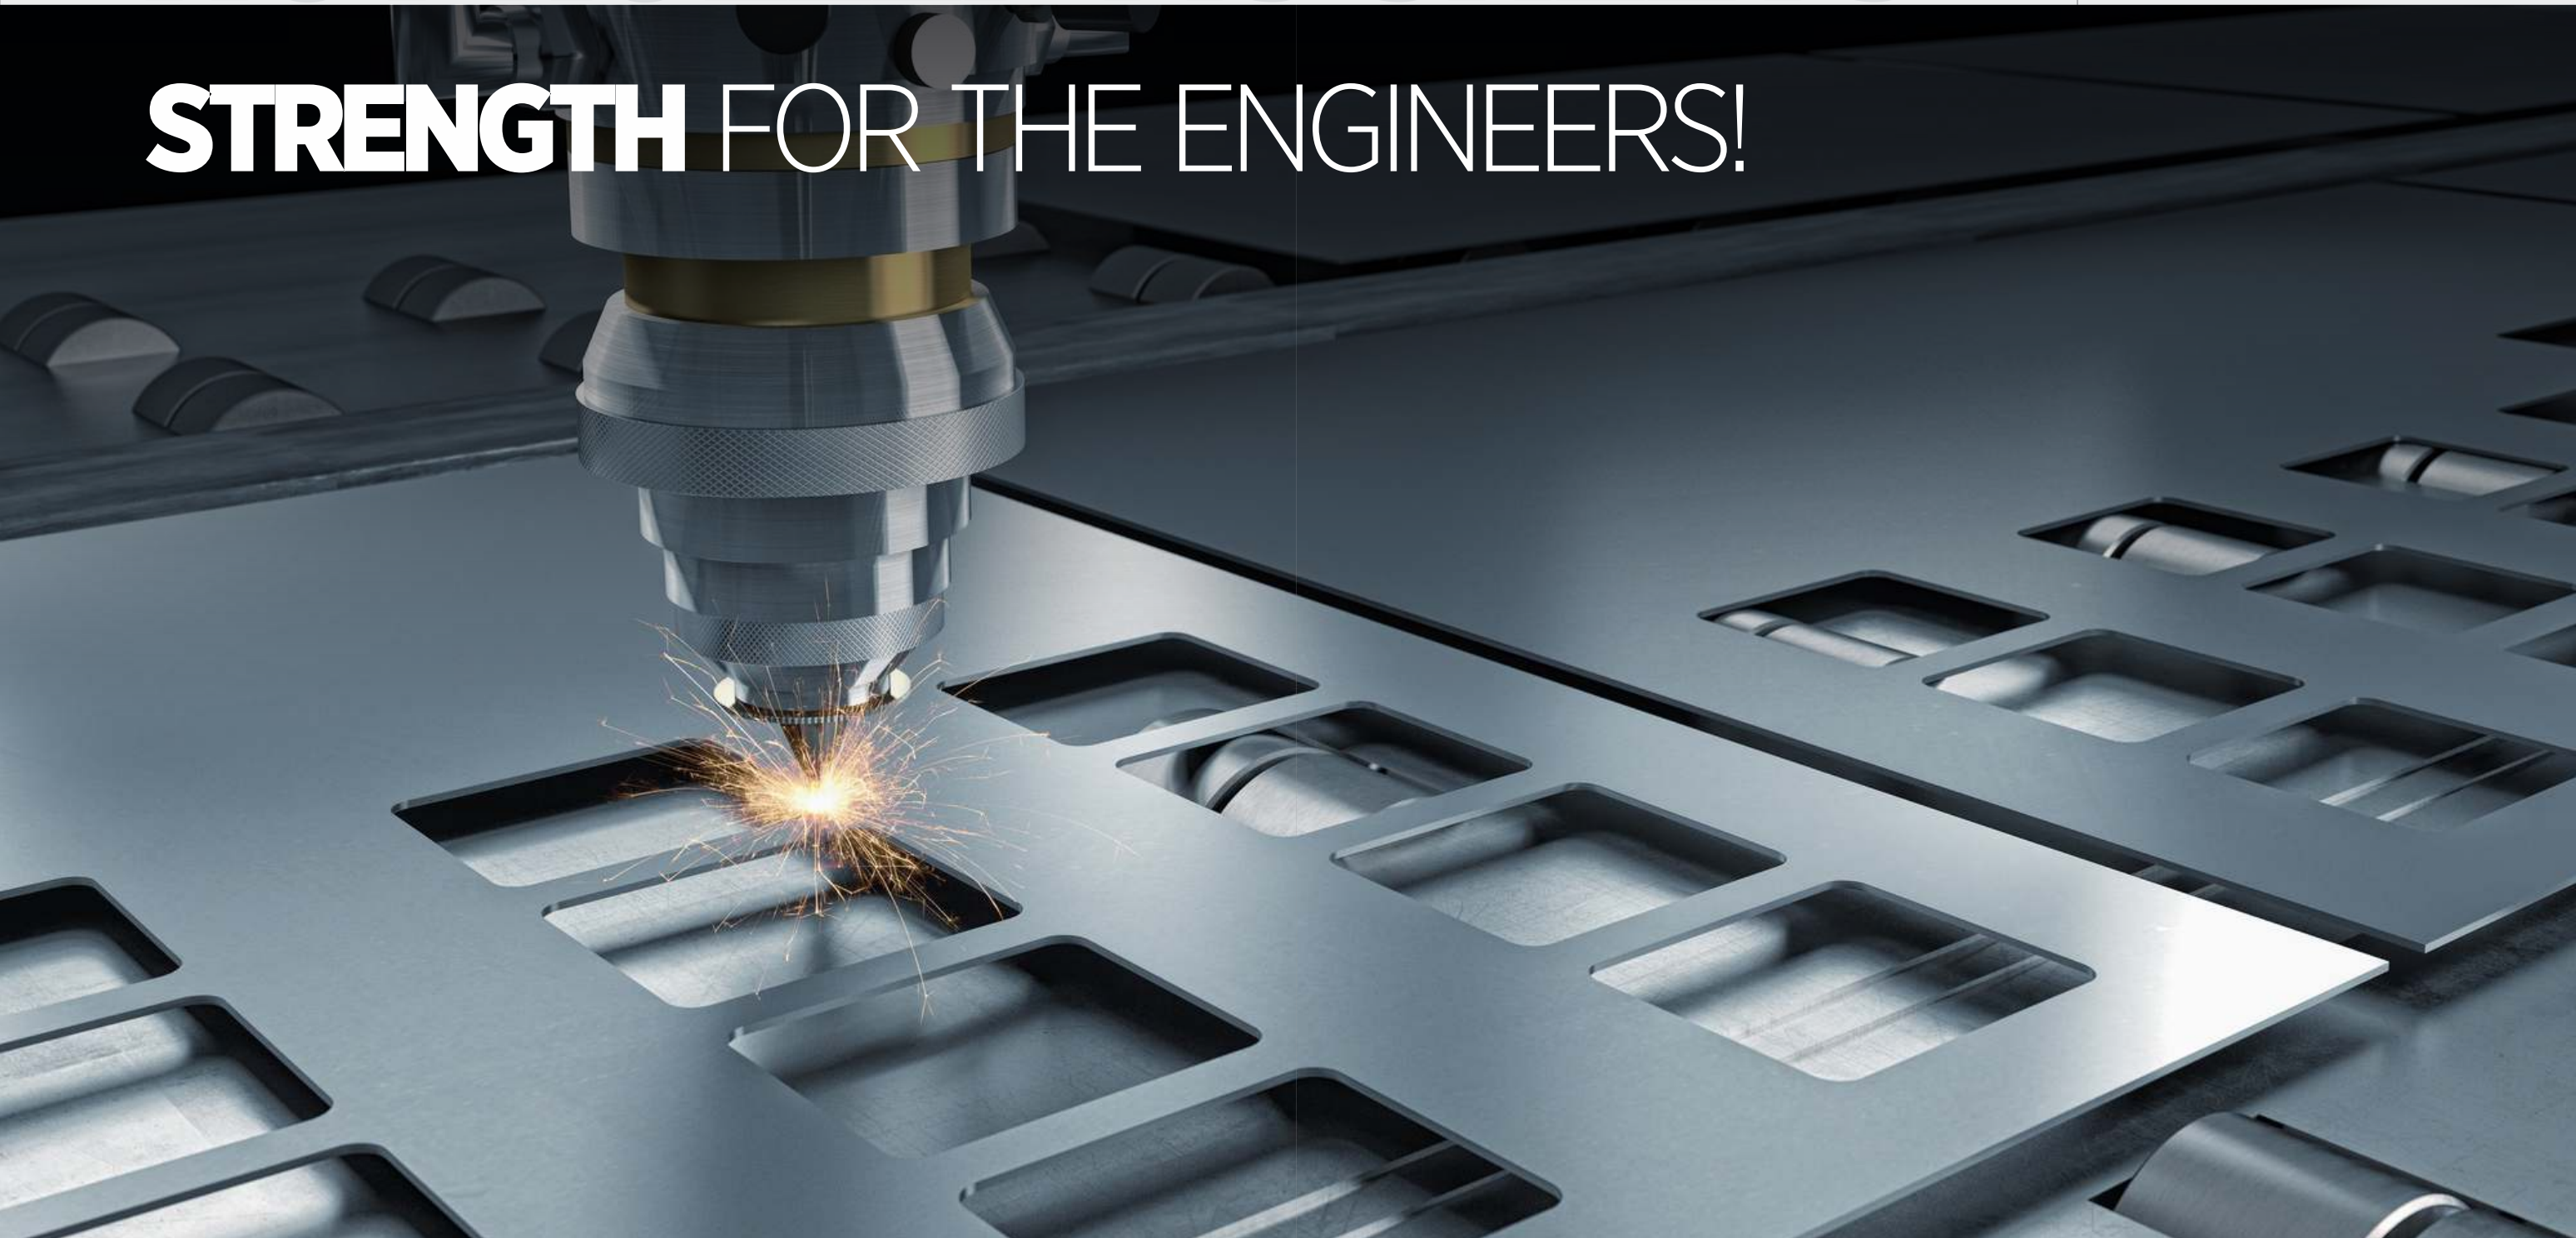

Round : 10 O.D. to 50 O.D.

Rect Pipe : 25 x 12mm to 100 x 50mm

HOT ROLLED MS SHEETS

STRENGTH FOR THE ENGINEERS!

SUPPLIERS OF HIGH QUALITY HOT ROLLED MS SHEETS

We at Giriraj Steels believe in commissioning top-notch quality product from renowned companies/brands. Our expertise lies in delivering these brands just in time at your door step.

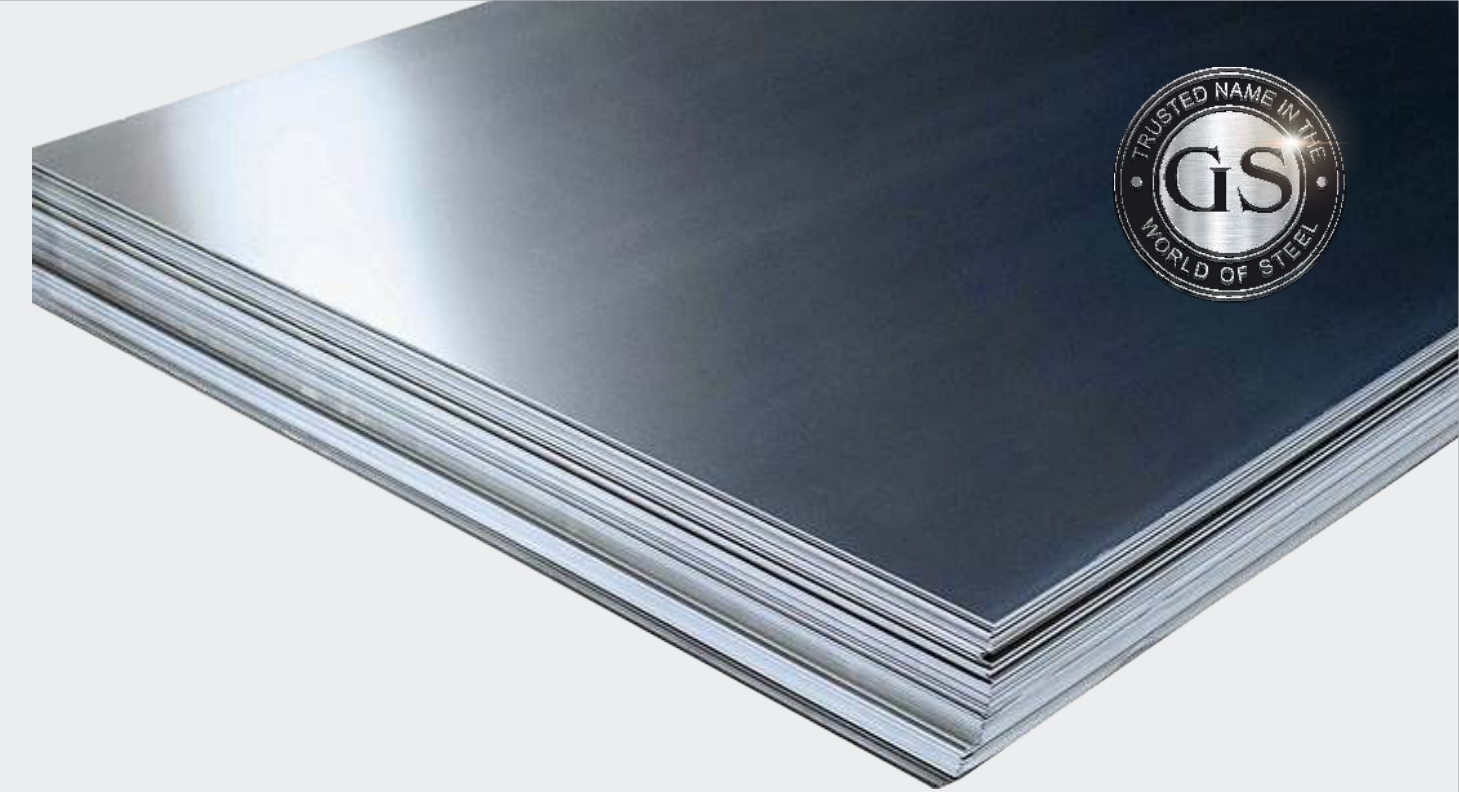

MS Sheets:

Thickness (mm) : 1.2 mm to 50 mm

Width : 900, 1000, 1250, 1400, 1500, 1830 2000, 2500 mm

COLD ROLLED MS SHEETS & COILS

SAFETY ALWAYS FIRST!

SUPPLIERS OF HIGH QUALITY COLD ROLLED MS SHEETS AND COILS

Cold Rolled Steel is extremely ductile. It is formable for moderate draw applications, cold-rolled steel sheet, are commonly used in all areas of manufacturing of durable goods, such as appliances or automobiles.

MS Sheets & Coils:

Thickness (mm) : 0.30 mm to 2 mm

width : 900, 1000, 1250, 1400, 1450, 1500, 1550 mm

GALVANIZED SHEETS & COIL

FROM INDUSTRIAL TO DOMESTIC,
GI SHEETS ARE EVERYWHERE!

SUPPLIERS OF HIGH QUALITY GALVANIZED SHEETS & COILS

The galvanized steel we deal is not just high in strength, but also corrosion-resistant, durable and lightweight. The zinc-iron alloy layers formed during the process of galvanizing create a protective coat around the steel, keeping moisture out and preventing corrosion.

These are used in construction projects, electronics, Automotive industry , General Engineering, Water coolers etc.

GI Corrugated are used for roofing purpose.

Galvanized Sheets & Coil:

Thickness (mm) : 0.2 mm to 2 mm

Width : 900, 1000, 1220mm

Galvanized Corrugated Sheets:

Thickness (mm) : 0.30 mm to .060 mm

Width : 800, 1220 mm

ANNEALED / BINDING WAIRE

THE UNBREAKABLE BONDING!
BINDING WIRES &
ANNEALED WIRES!

SUPPLIERS OF HIGH QUALITY ANNEALED WIRES & BINDING WIRES

Binding wires are mild steel wires used for binding rebars in the field of construction. After annealing process, these wires become extra strong, flexible and reusable. Annealed wires are used in various fields like handicrafts, furniture and safety grills etc. The mild steel raw material provides tensile strength along with enough flexibility to bend the wires repeatedly without breaking.

ANNEALED WIRES:

Thickness (mm) : 2 mm to 6 mm

BINDING WIRES:

Thickness (mm) : 20 gauge

WINDOW SECTION

GLANCING OUT BEAUTY
OF EXTERIORS!
BEAUTIFUL **WINDOW SECTION!**

SUPPLIERS OF HIGH QUALITY WINDOW SECTIONS

Steel window sections give an aesthetically appealing look to your exteriors. Its unique bending property helps in execution of innovative window designs. It's very safe and environment friendly choice for windows, very affordable as compared to the expensive concrete construction.

COLOUR COATED PROFILE SHEETS

A SHELTER OF
QUALITY & TRUST!

SUPPLIERS OF HIGH QUALITY COLOR COATED PROFILE SHEETS

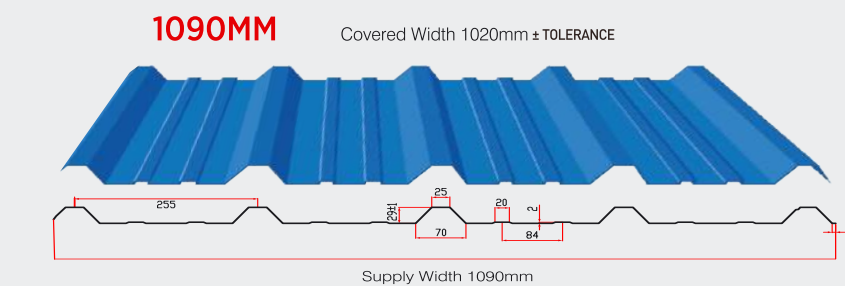

We deliver high-quality colour coated sheets that add aesthetic beauty to your homes and industries. Our PPGI & PPGL Sheets have been extensively used across a wide range of projects. The product with superior paint technology, provides additional protection for longer life. Colour Coated Roofing Sheets have very Low Maintenance, High resistance to weather, strong, durable and Leak proof.

Colour Coated coil:

Thickness (mm) : 0.40mm to .60mm

Width : 900mm, 1220mm & 1450mm

Colour Coated Sheets:

Thickness (mm) : 0.40mm to .060mm

Width : 1060mm, 1090mm & 1262mm
